

A large crowd of people, mostly young adults, is gathered in front of a large, colorful mural. The mural features a central figure with a face, surrounded by vibrant, swirling colors like orange, red, and blue. The scene is outdoors, with green trees visible in the background. A large red semi-transparent box is overlaid on the left side of the image, containing the title text.

Audit Results

Harmful Terms

- Most found in titles
- Term in not harmful context
- "Indian"

Obscured Identity

- Mrs. Husband's name problem
- Honorifics in general

Contextualization

- Marginalization
- Invisible norms
- Outdated terminology

Guidelines and Implementation

DALLAS MUSEUM OF ART

Harmful Content and Language

- Creation of language statements for specific situations
- Titles that cannot be changed
- Content in institutional records like press scrapbooks
- Challenging content like images of human remains

Obscured Identity

- Removing honorifics as seen and going forward
- Researching and including woman's full name to replace married name
- Inclusion of married name secondary to legal given name for discoverability

Grace Leake Dexter (Mrs. Charles L. Dexter): First President of the Dallas Art Association 1903 - 1904

 **Item** **Identifier:** Item 2

Preferred Terms and Contextualization

- Emphasis on creator over subject leads to misidentification and/or under-description
- Remediation can include capitalization, adding or removing person-first language, acknowledging and changing creator-given description, identification of culturally sensitive knowledge or objects
- Research and collaboration through community-authored resources, solicitation of feedback, and other inclusive description resources
- Replacing inaccurate creator-given terms in narrative description (ex: Yugoslavia)
- Remediating generalities like "Pre-Columbian" in narrative description

Review, Transparency, and Feedback

- Audit review schedule for review of the guidelines themselves and a subsequent collection description audit
- Publicly available decision-making documentation in instances of remediation that tracks changes made (or lack thereof) and includes resources, explanations, and original content
- Publicly available mechanism to allow for feedback on language in description

Next steps and resources

Future projects

- Surfacing hidden creators and subjects who are referred to by role or relationship only
- Race, ethnicity, and identity descriptors in legacy description and new acquisitions
- Tackling legacy description remediation more methodically
- Anonymous feedback option
